Art Unit: 3728

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 7-8 and 18-19 are finally rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The recitation of the range of the angle of the first downwardly extending wall being "between 5 degrees and 30 degrees" appears to be new matter, as such a range is never described by the specification. A pitch of 5-30% is recited, which is different than the range of angles now claimed. Angles of 15 degrees and 25 degrees are mentioned but no range as now claimed.

3. Claims 1-3, 5-9 and 13-22 are finally rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 9, a "single tab" is defined, and subsequently referred to as a "single tab". The repeated use of "single tab" renders the initial definition of a "single tab" as indefinite as to the word "single" being a definite number of tabs or a mere adjective merely meant to distinguish this tab. To clearly show that the initial recitation of "single tab" has a particular meaning, it is

suggested that each subsequent reference to the tab should be as "said tab" in claim 1, lines 9, 11, 17 and 19, claim 2, lines 5, 9 and 10.

In claim 14, line 17, "the item of jewelry" lacks antecedent basis, and should be --an item of jewelry--.

Claims 17 and 20 appear redundant, as the first winged projection is already defined to extend downwardly to a position below the tab to bias an item of jewelry against the tab.

4. Applicant's arguments with respect to claims 1-9 and 13-22 have been considered and been found convincing in view of the art of record, but are moot in view of the new ground(s) of rejection under 112.

5. Claims 1-3, 5-6, 9, 13-17 and 20-22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

6. Claim 4 is allowed.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
